Range of Cosmetic Dental Treatments

Dental Bonding

Ideal for patients with chipped, cracked, or damaged teeth.

Skillfully fixes imperfections in a patient's smile.

Dental Implants

Titanium post surgically drilled into the jawbone to replace missing teeth.

Boosts confidence and restores full functionality to the mouth.

The Diamond Dentist®

Creates the Diamond Smile with tooth gems, diamonds, and Swarovski crystals.

Captures colorful prisms of light for a sparkling effect.

Porcelain Veneers

Thin shells of durable porcelain material attached to the front face of teeth.

Instantly enhances appearance, making teeth look brighter and more symmetrical.

Invisalign

Modern orthodontic treatment using clear, removable aligners.

Discreetly straightens teeth, providing a comfortable alternative to traditional braces.

The Diamond Dentist®: Creating Unique Smiles

The Diamond Smile

Dr. Anjali Rajpal's artistic creation involves aesthetically placing tooth gems, diamonds, and Swarovski crystals to give smiles a sparkling effect, capturing colorful prisms of light.

Artistry in Dentistry

With a background in sculpting and painting, Dr. Rajpal brings a creative touch to cosmetic dentistry, focusing on creativity, perception, and meticulous craftsmanship.

Personalized Designs

Collaborating with clients to produce unique designs individualized to their personalities, Dr. Rajpal treats each smile as a work of art, ensuring a one-of-a-kind result.

Long-Lasting Results

By blending art and science, Dr. Rajpal ensures that the Diamond Smile and other cosmetic treatments provide patients with smiles that are not only beautiful but also durable and long-lasting.

Continued Education for Best Results
